

## **Sidekick Pro Update 061215**

The following changes were made in Update 061215.

### **Parameter Bias Estimates**

In-tol Probability estimates on the Main Screen and in Analysis Reports are now consistently displayed as percentages.

### **Pareto Plot Display**

A bug was detected and fixed which prevented the display of Pareto Plot information for data entered on the Parameter Uncertainty Worksheet.

### **SMPC Analysis Report**

In-tol Probability estimates on the Main Screen are now consistently displayed as percentages on the Bayesian Analysis Report.
